
#the beginning This is a list of the 37 best websites to learn something new. These websites and apps cover myriads of science, art, and technology topics. They will teach you practically anything, from making hummus to building apps in node.js, most of them for free. There is absolutely no excuse for you not to master a new skill, expand your knowledge, or eventually boost your career. You can learn interactively at your own pace and in the comfort of your own home. It's hard to imagine how much easier it can possibly be! Honestly, what are you waiting for?

#1 - Khan Academy: <https://www.khanacademy.org> Khan Academy is one of the best places to learn practically anything, from math to history to even guitar. It has a huge course selection, as well as a progress tracker and an offline mode. If you want to learn almost anything, Khan Academy is the place for you!

#2 - Duolingo: <https://www.duolingo.com> If you're looking to learn a language, Duolingo is a pretty great place for that. You can pretty much learn any language there - from Spanish and French, all the way to Swahili and even Klingon (from Star Trek!). All of the courses are available for free!

#3 - YouTube tutorials: http://www.youtube.com/channel/UC_qI-DU0K3uL0rfhPmYOGbA If you want to learn how to do something, chances are someone has made a video tutorial to teach you how, and chances are that video is on YouTube. Just search up how to build a website, draw anything, play guitar, or find out how to make your own hummus (you can find all of these tutorials by the way).

#4 - Skillshare: <https://www.skillshare.com> Skillshare is a pretty cool website where you can sign up, create an account, and then watch courses as they are created. You can take courses from all over the world, from artists to writers to musicians to tutors. There are even courses from Microsoft! There are free courses as well as paid ones, so there's something for everyone.

#5 - Duolingo: <https://www.duolingo.com/en/> If you're looking to learn a language, Duolingo is a pretty great place for that. You can pretty much learn any language there - from Spanish and French, all the way to Swahili and even Klingon (from Star Trek!). All of the courses are available for free!

#6 - Khan Academy: <https://www.khanacademy.org> Khan Academy is one of the best places to learn practically anything, from math to history to even guitar. It has a huge course selection, as well as a progress tracker and an offline mode. If you want to learn almost anything, Khan Academy is the place for you!

#7 - Quizlet: <http://www.quizlet.com/> Quizlet is a website which allows you to make flashcard decks on any topic using pictures or words, which are represented by different colored cards with pictures on them.
